

# The Miner.

T. J. Butler, Editor.

FRIDAY, AUGUST 27th, 1875.

All accounts for advertising and subscription which became due on or before the first day of February, and all bills for legal advertisements which appeared in the Miner prior to that date are payable to John H. Marion. All accounts accruing since that date are payable to T. J. Butler, the present proprietor.

## FINANCIAL CRISIS IN SAN FRANCISCO.

Suspension of the Bank of California—Heavy Run on other Banks—Gloomy Prospects.

The following dispatch to the MINER, received last night, portends evil times in California. No institution in that State has so many business complications with merchants, farmers, stock-raisers and business men generally as the Bank of California, and if the suspension announced in this dispatch shall prove an absolute failure it must necessarily involve thousands of people who are unable and wholly unprepared to meet such a misfortune. We shall look anxiously for further particulars:

San Diego, August 26.—The Union of this city publishes an extra this evening announcing the suspension of the Bank of California. Other banks sustained a heavy run to-day, and a black day is expected to-morrow in San Francisco.

SPECIMENS FROM PINAL.—Mr. James A. Wilson, of E. N. Fish & Co., Florence, was in town this week on his way to Los Angeles and had with him a valise nearly filled with specimens from the Silver King, Athens, No Mistake, Pike, Spotted Tail, Josephine, and Redemer mines, in the Pinal mountains. These mines are all located in or near "the little brown hill on the Stoneman grade," and certainly corroborate much that has been said with reference to the wonderful richness of the Pinal ores; nevertheless we fail to recognize any of that bright virgin silver the dispatches tell us of; in fact it is not necessary for it to be there. The ores in the Silver King and Athens are rich enough as they are, without being gilded by sensation reports. The specimens Mr. Wilson exhibited to us would certainly work several thousand dollars to the ton, some of them, we should say, being fully equal to the selections we have seen from the Peck, which they very much resemble. As with the Peck, the question is not, How rich is it?—that is a settled fact—but, How much is there of it? If this Summer's discoveries prove to be as extensive as they are rich at the surface, Arizona is the best silver mining country on the face of the earth. Discoveries have but just begun to be made, and if they hold out in going down, another twelve months will reveal enough silver mines to supply the world.

WHY SET IT UP ON US?—The Citizen, published at the Capital, where the new laws come boiling hot from the legislative pot, ought to know better than to make the following assertion, when the statutes provide that no more than \$2.50 on the one hundred dollars of taxable property can be levied: "As will be seen by our report of the Supervisor's proceedings, the entire tax levy—Territorial, county and school—is only \$1.75 on each \$100 of taxable property; last year it was \$2.45. And by the way we mention that in 1874, Yavapai county's rate was \$3.10 on each \$100."

The fact is Yavapai's rate in 1874 was \$2.50 and not \$3.10, and in 1875 it is \$2.25. If we are correctly informed Yavapai scrip is selling for more than that of Pima to-day, which would seem to indicate that she is nearer out of debt. Will new Pima scrip bring 92½ cents cash.

WE are sorry to have published for truth a canard with reference to the discovery of a rich gold lead in the Peacock mountains. If parties will not write the truth we much prefer that they would not write at all. So many foolish stories of rich discoveries have been published that we had determined to be very guarded, and felt quite sure of the reality of what our Corbat correspondent wrote or it should not have found a place in our columns. Why he should have written as he did is unaccountable, as there was certainly "nothing in it."

THIRTY-FIFTH PARALLEL.—The Los Angeles Express announces an important fact in connection with railroads in Arizona. It claims to know that John P. Jones and his backers—an English company—are negotiating for the franchise of the Atlantic & Pacific R. R. Co., with a view to building a railroad at once from Los Angeles, Cal., to St. Louis, Mo. The Los Angeles and Independence road being the starter.

The editor of the Citizen pleads innocence of crime and doesn't want to be hung to maintain his theory; thus, practically giving up the fight. If one's faith is fit to live by he ought to be willing to die to maintain it. We are sorry to see him weaken when put to the test.

C. W. GEARHART has written us from Santa Rita Mountains, and claims that he has authority to advertise for the Insurance Co. The company takes a different view of the matter, and our claim languishes just the same as if he hadn't any authority. It is a comfort, however, to know that he will pay it himself when he gets able.

W. E. MORFORD has recently been appointed Indian Agent at the White Mountain Agency, and the Citizen says, left Tucson for his new field of labor on the 12th. We can hardly imagine his usefulness there when the buildings are all burned and the Indians removed to San Carlos.

## FROM MOHAVE COUNTY.

MINERAL PARK, A. T., Aug. 20, 1875.

EDITOR MINER:—Knowing that you are desirous of chronicling any and all events from the various parts of the Territory that could interest the readers of the MINER, I undertake to make up a letter for your paper.

Truth compels me to say that our county has never, during the past two years, presented so gloomy an appearance as it does at present. Last Spring and Winter every one thought we were just stepping out from a night of adversity—dark with disappointed hopes—into the bright morn of prosperity; nay, almost realized hopes. But, notwithstanding the brilliant outlook, we, to-day, are still "hanging on the ragged edge of despair," waiting for better times; still confident that the day must come when "the camp will come out." It may be that I am out of order in stating the case so adversely to the usual bright story of newspaper correspondents, and it may be that newspaper men don't want anything but silver stories with golden fringe.

You all heard, last Spring, about the Greenwood mine; how a 10-stamp mill was being put up, and how it would soon be turning out the bullion? Well, it went up, made a short run, didn't pay, and is to-day idle. The chances are the mine was a spotted one (gold), and that the ragged-pants boys from Prescott had worked that pocket about before they sold it to the unfortunate buyers. But, mark you, the Greenwood is a gold bearing ledge, stuck in among a mass of silver ledges, and if it is a fraud it is no sign that the great huge silver veins such as the McCrackin and Burro are failures also. No, we admit the Greenwood was tried and found wanting, but the McCrackin is just as good as ever, and the prospecting done, which is not a little on that vein, has proved that if the rich croppings were not the foreteller of what some supposed, that the ledge is a good one and will justify extensive working and a heavy outlay to put it in paying condition, such as building mill, and so forth.

Col. Dave Buel has been trying to get up smelting works to smelt the ore, but as he has not yet done the former it cannot be fairly presumed that he has accomplished the latter. We shall see what he may do anon. We have had lots of "shoal-water capitalists;" they have given this county jaw-bone ad infinitum until we have just about shared the fate of the Philistines. I tell you, a new mining camp can get along first rate without wrecked mining speculators who, through bonding mines and hastening to San Francisco, seek to resurrect their large fortunes by selling again at a huge bonus. Any miner in Mohave county who would now bond a mine to the wise-looking owls from 'Frisco, or any other place, may be put down as a "dampshole."

But, after all that is said and done, we have got our mines here yet; they can't be packed away if they can be tied up. The McCrackin has been under bond for some time to men who have proved exceptions to the rule of bonders, in this, that they have done some work; not extensive, but skinning work. The chances now are that when Col. Carl Davis, who has just examined the property, makes his report, that the balance of purchase money for the mine will be paid, and work engaged in vigorously. It is rumored that the Greenwood mill will soon run on McCrackin ore.

Were it not for the fact that some of the best looking ground on the McCrackin is tied up by some jumpers, who took and now hold possession, there would be two companies now at work instead of one.

At Mineral Park, an attempt is being made by Davis & Randall to do something. They are and have been for some time running the Pioneer mill. It gives employment to several men, teams, choppers, etc., and is turning out some bullion. A bar was turned out ten days ago worth \$1,000, and they have more than enough crude bullion on hand to make another like it now.

Mr. R. Canfield bought the Pioneer mill site and two weeks ago broke ground for the erection of his perfect 5 stamp mill, roaster and all complete; the machinery for all which is now on the ground. Just as work commenced, word came from San Francisco which has caused a delay, but on Monday next work will be resumed, and the mill will be speedily put up.

You published a letter last week from Cerbat, telling of a very rich discovery of gold mines, in the Peacock mountains, by Bucksbaum, Cory and Blakely. Not one word of that unaccountable yarn is true, not even the deer hunt; the story was all made up from whole cloth. Why any person should make an innocent newspaper a party to such a falsehood is more than I can tell.

Ridener is now sinking on his ledge at Hackberry; he proposes sinking 100 feet before stopping, if water does not prevent. Everyone tells the same story about that mine, and that is, that it is the finest thing extant; reliable men candidly assuring me that there is easily \$250,000 in sight, and all that without going more than 30 feet down. I shall go out next week and take a look.

The main stand of the MINER (indeed of all the papers of our Territory) in defence of our public school system, has earned and obtained the profound gratitude of the people of this county. The fulsome flattery of ingenious advocates don't seem to effect you a bit. When I was a boy, our folks were pretty poor, and if they had had to buy schooling for us eleven children we would not have got much. There are lots of youngsters in Arizona in about the same fix, and there are some folks that never had any education, who wouldn't wake up to sending their children to school if it were not that we make the school house a public concern; and then, added to that hint, we have made a law that will give them a kick if they don't take the hint without it. Not long ago a big man

went to a MINER with a fearful story that Mr. Citizen was peeling him because he had thrown stones at our country school houses, and then would not lend him the Citizen's columns to plead his case through. The course of the MINER on that occasion reminds me of the way our dad used to do if any of us went home from school complaining of a thrashing by the master; he would say, "A-ha, you must have been doing something wrong," and thereupon he would proceed with flogging number two. That big man got about the same kind of comfort from the MINER. Apropos, our district school has just closed a three months' term. Miss Matthew, the teacher, succeeded admirably as a teacher, and I never saw little folks make such fine progress in like time; from scarcely knowing their letters at the commencement several are now reading readily in words of four and five letters. But, I fear, I am extending this communication too far. At some other time I would like to discuss the reasons why a man may champion public schools in Nevada, and seek to destroy them in Arizona.

PIMA COUNTY ITEMS.—From the Citizen of the 14th inst.:

News from the Ostrich mill and mine is very good. Thomas Ewing and James H. Toole were out this week, and say the mill has been running very smoothly for several days, daily crushing eighteen tons. It would run on till to-day when a clean-up will be made, and the prospects are that expectations will be met. Ore is abundant and much of it shows free gold, and from all accounts, it seems impossible that there should be anything but a satisfactory result, at the first and all following clean-ups.

Visitors to the "Old Mine," report their belief that it is the most valuable in this county. It was expected that a working test would have been made ere this. Workingmen are still taking out ore.

Mr. Nash visited his mine near San Xavier this week. Presume his object was to prepare for the erection of the reduction works now en route here by teams of I. Goldberg.

In the United States court, in the matter of the United States against L. A. Stevens, et als., bondsmen for a defaulting postmaster at Prescott some years ago, a change of venue was asked and allowed removing the case to the district court in Yavapai county.

The following special order, No. 62, was issued at Headquarters, Department of Arizona, August 23, 1875:

I. A General Court Martial is appointed to meet at Fort Yuma, Cal., at 10 o'clock, a. m., Monday the 6th day of September next, or as soon thereafter as practicable, for the trial of such persons as may properly be brought before it.

Detail for the Court:

1. Captain George W. Bradley, A. Q. M.
2. Captain Leonard Y. Loring, Assistant Surgeon.
3. Captain A. W. Corliss, 8th Inf.
4. Captain Daniel T. Wells, 8th Inf.
5. Second-Lieutenant P. H. Ray, 8th Inf.
6. Second-Lieutenant H. L. Haskell, 12th Infantry.

First-Lieutenant C. A. Earnest, 8th Inf., Judge Advocate.

No other officers than those named can be assembled without manifest injury to the service.

The Court will sit without regard to hours.

II. Private George H. Tinker, Company F, 8th Infantry, is detailed on extra duty as messenger at these Headquarters.

III. Captain A. T. Smith, 8th Inf., will proceed without delay to inspect the money accounts of the disbursing officers stationed at Camps Bowie and Lowell, and at Tucson, A. T. On the completion of this duty, Captain Smith will return to his proper station.

Mr. BLIVEN, an old bachelor of Rochester who is much absorbed in politics, visited the Widow Graham the other day; just after reading Grant's letter, and asked her what she thought of a third term. Now the widow has been twice married, and in response to the question she made a rush for the astounded Mr. Bliven and taking him tightly in her arms exclaimed, "O, my dear, dear man! What a happy woman I am!" At last accounts Mr. B. had locked himself in his wood house, and was endeavoring to explain things to the widow through the key-hole.

The following were a few of the maxims of that king of printers, Benjamin Franklin: Trade is the mother of money; be forehanded with your business; spend and be free, but make no waste; prayer and provender hinder no journey; credit is like a looking-glass, easily broken; he who looks not before, finds himself behind; keep thy office and thy office will keep thee; they can never thrive who spend their time in beer-houses, and in gaming houses; God helps those who help themselves.

GENERAL SCHENCK, U. S. Minister to England, has been using an old American anecdote to good advantage. To the wife of a British cabinet officer, who assured him that "England made America all that she is," he said: "Pardon, madam, you remind me of an answer of the Ohio lad in his teens, who attending Sunday School for the first time, was asked by his teacher, 'Who made you?' He replied, 'Why God made me about so long (holding his hands about ten inches apart) but I grew the rest.'"

The Los Angeles Herald of July 28th says: "Reports from the wheat-growing sections of the State indicate that the wheat crop is even lighter than anticipated a few weeks before harvest. Perhaps not over one-fourth, or at furthest three eighths, of an average crop has been raised this year. Deducting the measured amount which will be required for home consumption and for seed, it is safe to say that California's wheat export for 1875 will not exceed fifteen or eighteen million bushels—less than half that of 1874."

J. M. ROBERTS, we learn, will be here from California on the next stage, having been left at Mineral Park by the last buck board.

Messrs. Kerwagon & Allen have the contract for building Asher & Co.'s new store mentioned elsewhere.

The walls of Bashford & Co.'s brick store are nearly completed and will soon be ready for the roof.

A delayed letter, with reference to a ball at Camp Apache, has arrived and will appear next week.

## TELEGRAPHIC.

(Special to the Miner by United States and W. U. Lines.)

### EASTERN.

Washington, August 20.—Information has been received at the State Department that two filibuster steamers are now approaching the coast of Cuba, well provided with arms.

Washington, August 19.—Long letters have been received from Prof. Jenny, dated, Black Hills, which say that considerable placer gold is found, but not rich or extensive as compared with California.

Denver, Colorado, August 19.—Grain crops are unusually promising in Colorado and New Mexico.

Berlin, August 19.—The Herzegonian insurrection is assuming serious proportions. Turkey declines intervention. Austria and Prussia are putting 50,000 calvary on war footing.

Madrid, August 19.—Don Egoray was defeated by Alfonsites and pursued into the mountains.

Augusta, Georgia, August 18.—Eighty negroes were lodged in jail on a charge of intention of raising an insurrection and massacring the whites. No further trouble is anticipated.

St. Paul, Minn., August 18.—A special from Bismarck reports gold found in great quantities in the Black Hills. Miners are pouring in, and great excitement prevails. The Indians will not treat until the miners leave.

Vienna, August 18.—The insurrection in Turkish provinces covers 200 miles of territory. It is reported that 25,000 troops which landed at Kleeke refused to march for Mostar, on account of the Insurgent occupancy of the mountain passes on the route.

London, August 18.—The steam yacht carrying the Queen and the royal family in crossing from Osborne to Portsmouth this morning collided with and sank the schooner yacht Mistletoe. A party of ladies and gentlemen on the Mistletoe were drowned; one killed. None of the Royal party were injured.

The governments of Syria and Greece have formed an alliance offensive and defensive against Turkey. A letter from Dalmatia, dated August 16th says, 16,000 men are ready to join the Bosnian insurrection. Servians from all parts are arriving to fight for Independence.

Boston, August 18.—There has been considerable doing in California wool sales; 495,000 pounds sold at from 19 to 32½. There is a decline in California of about 4 cents per pound from the highest point a few months ago. There is a disposition to close out stocks as fast as possible at this rate.

Louisville, August 27.—The crop reports from all sections of Kentucky show light average yield. Tobacco returns show a correspondingly light yield from all over that section of the territory which produces three-fourth of the tobacco crop of the United States. Full corn crops are predicted. Wheat and rye will be from one-half to two-thirds crop. Oats are damaged more than any other crop. Hay crops will be large.

### PACIFIC SLOPE.

San Francisco, August 20.—It is reported that Frank Pixley and De Young have quarrelled, and that Pixley has left the Chronicle. At all events, the Chronicle has ceased to champion the Committee of Twenty-Four.

Local politics is lively. There are almost as many different conventions as offices to be filled, and all abusing each other.

Charles Hanson, proprietor of a notorious house of ill repute, on Waverly Place, near Washington street, was shot and fatally wounded last night in a bar-room attached to the house, by a man named McVey.

Sacramento, August 20.—A fire is raging in the woods at Emigrant Gap, endangering the snow-sheds of the railroad. From later advices it is understood that the employees of the railroad have checked the flames.

Santa Barbara, August 19.—Governor Pacheco was taken suddenly ill yesterday and is unable to go on to Sacramento with the party in whose company he was pleasuring.

The jury has been secured for the second trial of Mrs. Norton. The trial will begin to-morrow.

San Diego, August 20.—Lieut. Philip Reade, superintendent U. S. military telegraph, left here yesterday for Yuma, where he expects to get conveyance and make reconnaissance of new lines from Camp Apache to Santa Fe.

Fresno, Cal., August 16.—A party from Sycamore states that at an early hour this morning the Hotel of W. H. Parker, at that place, was entered by a band of Mexicans, and after robbing the house of a small amount of money, proceeded to the ranch of a Mexican and drove a number of horses. The Mexican recognizing the leader as Chavez, whom he knows personally.

Carson, Nev., August 18.—Mrs. Hill, who was shot by a Chinaman, is in a fair way of recovery.

Sacramento, August 17.—A fire last evening burned four coal and wood sheds of the R. R. Company, on Gibboom street, burning 15 cars loaded with wheat, and damaging the Pioneer flour mill and the gas works; loss, \$30,000.

Santa Barbara, August 18.—Senator Booth and party visited San Buenaventura to-day, and addressed a meeting, returning here this evening en route to Los Angeles.

San Francisco, August 16.—It is supposed that Chavez and a confederate murdered John Borland, at Peach Tree, seventy miles from Hollister, on Saturday last. Borland was shot while drawing beer. One of the Spaniards resembled the description of Chavez.

Washington, August 19.—The steamer Uruguay has escaped with a cargo of supplies for Cuban revolutionists. The State Department is much chagrined at her escape.

cape. There is no hope of the re-capture of the vessel.

San Francisco, August 19.—Mining stocks are weaker to-day: Ophir, 67; Crown Point, 34; California, 65.

Gold in New York 114. Greenbacks in San Francisco 88½ and 89.

San Francisco, August 24.—Mining stocks are sinking very fast, quotations to-day are: Ophir, 57; Mexican, 21; Gould & Curry, 19; Crown Point, 31; Belcher, 24; Sierra Nevada, 17; California, 61.

The U. S. store keeper at Antioch distillery has been suspended and a discrepancy of 10,000 gallons of whisky in one month has been discovered.

General Sheridan arrived here last night and was received with a perfect ovation. The General goes to Oregon immediately, but will remain in San Francisco a month when he returns.

San Francisco, August 23.—Yesterday about 7:30 a. m. P. O'Neill, a well known gambler was shot and instantly killed by Wm. J. Taylor, a quasi sport and vender in bogus jewelry. The trouble arose from Taylor inviting himself to drink with O'Neill and party. O'Neill struck Taylor with a cane, when the latter fired with fatal effect.

Richard Larkman, grocer corner of Howard and Beal streets, had trouble with Ellen Londamane, his tenant, who struck him on the head with a decanter, from the effects of which he died yesterday. The woman was arrested.

On Saturday night two boys, named Edwin Sheridan, 15 years of age, and John Crowley, 10 years, got into a quarrel about the sale of some tickets to a boy's theatre which they were running in a cellar, in which Sheridan stabbed Crowley twice with a pocket knife. Crowley died of the wounds at noon yesterday. Sheridan was arrested on a charge of murder.

James Bonnelly, who was crushed between two freight cars last Thursday, died yesterday. The body of a man supposed to be Lacy, master of the ship Lady Blessington, was found in the Bay off Front street wharf yesterday.

A brute was arrested yesterday for attempted outrage on a little girl four years old, daughter of Mr. Powell of Alameda. His attempt was frustrated by the father of the child, who took the fellow to the lock-up.

Mining stocks were weaker to-day: Ophir fell to 60. Gold, 114; greenbacks, 88 to 88½.

### TERRITORIAL.

Yuma, A. T., August 23.—Mr. West, one of the three prospectors who came here a short time since from San Diego, got lost in Oatman Flat and perished for want of water and food. His body was found some distance from the road. He is one of the companions of the man who committed suicide here lately.

Lieut. Reade left here this morning for Tucson.

### DIED.

In Prescott, Monday Morning, August 24, 1875, of pneumonia, supervening upon a severe attack of cholera morbus, Charles Otten, a native of Hanover, Germany, aged something over 50 years.

Charles was an early pioneer of Yavapai county, having mined on Lyons creek in early days, and was well known and much respected by all the old settlers in this part of Arizona.

## NEW ADVERTISEMENTS.

W. L. HEMPHILL. W. B. CARLTON.  
**HEMPHILL & CARLTON,**  
**BLACKSMITHS, WAGON MAKERS,**  
and Carriage Painters.

HAVING TAKEN THE STAND FORMERLY OCCUPIED BY Mitchell & Gardner, on Granite street, nearly opposite Hathaway & Walker's livery stable, will conduct and carry on

**Blacksmithing,**  
**WAGON AND CARRIAGE**  
**MAKING AND REPAIRING,**  
**CARRIAGE PAINTING, ETC.**

In all the branches pertaining to a first-class Blacksmith and Wagon shop.

Particular attention paid to Horse-shoeing.

HEMPHILL & CARLTON.

Prescott, August 27, 1875.

### Ranch for Rent.

My Ranch, in Salt River Valley, near Phoenix, is for rent on favorable terms. For particulars enquire of

Rush & Wells, Prescott.

Phoenix, August 24, 1875.

### Information Wanted.

Persons knowing of the whereabouts of Uriah Davis will confer a favor on the undersigned by addressing him at

Prescott, Arizona.

Prescott, August 27, 1875.

### Estray Notice.

Came into my hand, about the 15th of July, 1875, one brown roan horse about 14 hands high, branded on the left hip, high up, with a heart, and on the same hip, low down, with a brand resembling a capital A with a bar across the top. Shod all round when he came, and had broken rope halloes. The owner is requested to prove property pay charges and take him away.

Willow Creek, Aug. 27, 1875.

L. A. STEVENS.

### Board of Examiners.

The County Board of Examiners will meet TUESDAY, AUGUST 31st, and THURSDAY, SEPT. 2d, at 1 o'clock P. M., at the office of the Probate Judge, for the purpose of examining applicants for certificates of teachers.

### Dissolution Notice.

The co-partnership heretofore existing between John Stemmer and R. Rightley, in the station business at Ash Creek, on the Verde river, is dissolved by mutual consent.

John Stemmer will continue the business, collect all dues and pay all debts of the firm.

JOHN STEMMER.

R. RIGHTLEY.

Aash Creek Station, August 27, 1875.

### For Sale.

TWO FINE RANCHES ON THE VERDE RIVER, three miles below Camp Verde, with plenty of water for irrigating purposes. Nearly 300 acres under cultivation; good houses, two stone corals and young orchard; with or without crops. For further particulars enquire of the premises.

Verde, August 27, 1875.

JOSEPH MELVIN.

### A Card.

To those who are suffering from the errors of youth, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. The great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LAMAN, Station D, Bible House, New York City, and you

## PRESCOTT.

### WM. M. BUFFUM

Still Occupies the Old Stand, West Side of the Plaza.

Prescott, Arizona,

And is in receipt of a Large Invoice of New and Desirable Goods

With others Ordered and on the Way.

His customers and the public generally can then buy as heretofore, anything they may need in the way of

GROCERIES, PROVISIONS,

Staple & Fancy Dry Goods

LADIES' AND GENTLEMEN'S

FURNISHING GOODS,

CLOTHING

MENS AND BOYS HATS

Boots and Shoes,

PERFUMERY & TOILET ARTICLES

PATENT MEDICINES,

HARDWARE, TIN & WOODENWARE

CROCKERY, GLASS AND EARTHENWARE

PAPER HANGINGS, LAMPS, CLOCKS,

Mining and Farming Tools,

Together with many other things, which will not mention. GIVE US A CALL.

Prescott, June 17, 1875.

### MONTEZUMA BAR & BILLIARD

SALOON,

MONTEZUMA STREET, PRESCOTT.

We have recently renovated and fixed up our Saloon in fine style, and have more but the choicest

WINES, LIQUORS, AND CIGARS.

FOR OUR PATRONS AND THE PUBLIC.

BILLIARDS.

We have two of J. Strable & Co's finest Tables, with Delaney's Patent wire cushions, which are far superior to any others now in use. Billiardists will please call and judge for themselves.

We have a Club Room, for gentlemen, attached to the Bar Room.

C. A. LUKE & CO.

### L. B. JEWELL,

&lt;
